### DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 51-60, 62-63, 66, 71-98, 100, 101, 109-127, 131, 132, 133, 134, 138, 139 and 140 drawn to apparatus and method for continuously recoding data on a disk, classified in class 386, subclass 95.
  - II. Claims 61, 64, 65, 67-70, 99, 102-108, 128-129, 130, 135, 136, and 137 drawn to an apparatus and method for deleting a part of data, classified in class 386, subclass 52.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I and II have separate utility such as Group I does not require a deleting means for deleting a part of the data as that is required by Group II and Group II does not require a continuous data area detecting means for detecting and recording continuous data as that required by Group I. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HUY T. NGUYEN whose telephone number is (571) 272-7378. The examiner can normally be reached on 8:30AM -6:00PM.
